

Mohamed Amine Marzouki

Recent Computer Science Graduate | AI & Full-Stack Development

96760961 | aminemz980@gmail.com | Tunisia |

Profile

Recent Computer Science graduate from the Higher Institute of Computer Science of Kef (ISI Kef), passionate about AI-driven quality assurance, automation, and full-stack development. Strong theoretical foundation combined with hands-on engineering experience gained through internships and personal projects. Motivated and autonomous, eager to bring technical skills to innovative projects while continuing to grow in AI and full-stack technologies.

Professional Experience

PFE Intern – AI-Assisted QA Automation

Feb. 2026 – May 2026

IP-Label Africa (ITRS Group)

- Built an AI-driven self-healing engine in JavaScript/Node.js that automatically detects broken Cypress selectors and suggests corrected replacements, cutting manual test-maintenance effort.
- Designed an automatic Cypress E2E test generation pipeline powered by LLM arbitration, reducing the time needed to write new test cases.
- Developed a React dashboard for real-time tracking of test generation runs and results.

Web Development Intern – Smartphone E-Commerce Application

2025

Tunisie Telecom

- Built a full-stack e-commerce platform with React and Node.js for selling smartphones, featuring a product catalogue and shopping cart.
- Implemented end-to-end payment processing and user/client management backed by MongoDB.

Personal Projects

AI Impact on Jobs 2030 – Machine Learning

- Built a machine learning model in Python predicting the probability that a job will be affected by automation by 2030, benchmarking Linear Regression, Decision Tree, and Random Forest algorithms with Pandas and Scikit-learn.

AI Student Assistant

- Developed a web-based AI assistant with Python and FastAPI, powered by LLMs, that answers student questions, explains technical concepts, and supports exam preparation.

Flutter Music Application

- Built a cross-platform music listening application in Flutter/Dart with an audio player and music search.

Technical Skills

Languages: Python, Java, JavaScript, PHP, Dart

Web: React, Node.js, Laravel

Databases: MySQL, MongoDB, Oracle

AI & Data: Machine Learning, LLMs, NLP, Pandas, Scikit-learn

Testing / QA: Cypress, E2E Testing

Education

Bachelor's Degree in Software Engineering – ISI Kef

2023 – 2026

Baccalaureate in Technical Sciences – Lycée Salah Ben Youssef

Certifications

AWS Cloud Practitioner (2026) — Generative AI — Google Cloud (2024)

Languages

French | English
